Objective:

I am eager to gain hands-on experience, collaborate with professionals, and contribute to innovative projects in a dynamic organization. I am self-driven, committed to continuous learning, and passionate about using my skills to add value wherever I work. Beyond personal growth, I find great delight in training others and take pride in helping people succeed in the tech space. My goal is not only to grow as a developer but also to inspire and uplift others on their tech journey.

Founder Experience

Founder, ANDOR TECH HACKDEMY
2025 | Lagos, Nigeria (Online & Physical)

- Founded a tech training institute focused on empowering students with digital skills in web development and computer science.
- Trained over 60+ students through online and in-person sessions on HTML, CSS, JavaScript, React, Git/GitHub, and other front-end tools.
- Developed curriculum, led practical projects, and provided mentorship and career guidance.
- Facilitated live coding sessions to enhance real-world problem-solving abilities.

Education

Yaba College of Technology – Lagos, Nigeria
Part-Time OND in Computer Science | Expected: 2025

- Relevant coursework: Programming, Data Structures, Algorithms, Web Development, Database Management, Networking Fundamentals, Operating Systems etc.

Scrimba (TechUp Africa Program) – Lagos, Nigeria
Front-End development certificate

- Built a web-based student management system using HTML, CSS, Bootstrap, JavaScript, and React.

TechBridge Program – Lagos, Nigeria
Diploma Degree in Front-End Development

- Developed a student management system using HTML, CSS, Git, GitHub, JavaScript, and React.
